

Appendix X

Figure a

The screenshot shows a Google Docs document with two sections: 'Week 5' and 'Week 6'. The 'Week 5' section contains a bulleted list of tasks. The 'Week 6' section contains a bulleted list of updates and progress. A comment from 'i.spasic' is visible on the right side of the document.

Week 5

- Database design done - uploaded onto google drive - feedback on design would be appreciated
- Waiting on Programme learning outcomes document from Helen Phillips
- In contact with John Evans and Nick Avis over form for focus groups and data protection
- This week planning on setting up the database, importing the data and then starting to analyse that
- Send an email out to all CS students across all years about participating in the focus group round week 8/9
- Create questionnaire to send round; send a copy to fellow course friends to get feedback on it and how I can improve the questionnaire.
- Finish off background research for interim report

Week 6

- New updated version of database design uploaded - contains details of the programme learning outcomes and correcting previous mistakes (There are now 2 new versions of this - Version 3 is how the current database looks; I've kept Version 2 for the interim report to show the changes)
- Received programme learning outcomes for Helen Phillips - will import these to my database
- Uploaded the consent form I'll be using for the focus groups and been in-touch with Nick Avis about it - need to add edits he suggested - will upload version 2 of this form along with email between myself and Nick Avis.
- Will upload a copy of the database as it stands so far
- Had only 2 responses for my focus group - will send another email round end of this week and post in facebook groups. Also looking into making an announcement in lectures next week to get more student to participate
- Not started on questionnaire design or focus group design yet - will make this my focus end of this week, beginning of next week
- Overall more or less on track with work plan - no major issues

Comment: i.spasic 12:38 PM Nov 12
OK. Think of the ways how to motivate people to participate.

Figure b

The screenshot shows the Google Drive interface. The 'My Drive' section is active, displaying a 'Meet your Drive' banner with a 'Download Google Drive for PC' button. Below the banner, there is a table of files. The sidebar on the left shows navigation options like 'My Drive', 'Shared with me', 'Starred', and 'Recent'.

Meet your Drive

My Drive is the home for all your files. With Google Drive for your PC, you can sync files from your computer to My Drive.
