## Google Docs (featuring Editing)

The screenshot shows a Google Docs interface for a document titled "Final report". The document content is as follows:

- What needs to into Report is "very project specific"
  - Emphatically, headings should be tailored
- Stick to "interesting" parts of implementation,
  - not getters and setters
  - only write important pieces of code
- Explanations are good
  - Including revisions and why you changed your mind
- Working (and evaluation of this) is good, roughly
  - Rough guide to grades
    - 1st achieved something worthwhile
    - 2.1 Works violentfemme
    - 2.2 Works
    - 3rd
  - Where doesnt it work well? &
  - Suggestions for future work
