

In the groups opinion, what are the major differences between	
Opening Times	I think the two major points I picked up our opening times I know that the coffee shops open late into the night I don't know exactly the time it at least 8 9 at night yeah the hours are cracking there as well, it closes at like three. yeah it's really bad
Environment	The other major thing is the environment they have the comfy sofas as they have relaxing. Cardiff University coffee shops which ever you go in to are exactly the same tables It's just the same as no character to it. one good thing about it is that its light although I don't think you'd need music in the coffee shops like Trev where ever but at least have like a TV or something the seats are really uncomfortable, they are so uncomfortable Along with a lack of speciality in the environment. perhaps on that comfort as well you go to Starbucks and there is nice comfy chairs Where is here there are cheap plastic tables, but you don't really go there to sit there is nicer decor in other coffee shops compared to Cardiff University ones. coffee shops out of the university are generally more comfortable. (coffee shops outside of uni) they have a generally cleaner feel.
Service	service because that bitch is really angry. I see that in my experience coffee shops in the university seem to be more self-service So they need a simple interface simple machines so people can use. Which is un
I wouldn't call it a coffee shop	I mean Cardiff (university) coffee shops the ones I've come across don't have the I mean if you want to make a Cornershop then fine but don't call it a coffee shop I wouldn't call them coffee shop.
Coffee & drinks	and rubbish coffee and the coffee is awfull A more limited range of drinks coffee machine seems to be more of an afterthought. they sell coffee, but that's they don't sell any kind of variation. yes they don't sell any cold drinks ether like frappanchenose or anything.
Food	So we have crisps and cakes and things And probably a bigger range of food in other coffee shops.
Buying habits	I think in normal coffee shops other coffee shops you go in and you definitely get working or whatever.

en Cardiff university coffee shop and coffee shops elsewhere?

e shops in the city are different because that is their primary business like Starbucks or costa
ht because it's convenient for shoppers.

re the nice tables they have decorations that make it real just more homey and sort of

les chairs

ryone talks

airs, tables, you get your coffee and a mug.
around.

serving.
derstandable.

at feel there more shops that sell coffee rather than coffee shops.
p.

st something wearers in humanities there's lots of people that haven't got anything and just
