

# Final Year Project Feedback Form

---

Personal Information	
<b>Name</b>	Damian Southard
<b>Occupation</b>	Security Engineer
<b>Organisation</b>	Cardiff University
Feedback	
Was the software easy to use?	Yes
How does the software compare to your current system? (if any)	Delivered components are on par with our existing solution – good work
What kind of scenario would you use this visualisation system? (if any)	Operational (NOC, Initial Analysis)
Would you change anything about the current system?	
What additional features would you like to see in future versions of this software?	For an operational environment :- Real Time Data Acquisition, Event Correlation and Orchestration, Custom Reporting and Export, Custom Dashboards/Views, API
Additional Comments	
Good initial iteration..presents data in a clear and useful manner..	

Thanks again for testing my final year project software.  
Aled
