

Teacher 1:

Are there any issues with the app?

App worked well, showed it to the pupils, easy to use.

Did you enjoy using the app?

Enjoyed the functionality of the app, thought the rewards linked with the words within the mission statement will enhance pupils knowledge and understanding of it.

How does it perform over the current sticker collection?

So far so good. It has a few layers of complexity but they seem to be working well.

What would you rate the app(1-5)?

Excellent - 5

Do you like the additional features in the app? Which ones?

I thought being able to import a photo and backgrounds were great features.

Was the design easy to comprehend?

After a few practises – it was easy to comprehend and use. Have not used the QR codes yet but will try this out soon.

Did the children enjoy using the app?

Pupils thought it was fantastic, however it needs to be monitored carefully by the teacher.

Did they comprehend it effortlessly?

They did when it was explained clearly.

What was their most favored part of the app? and why?

Pupils liked the fact that the images rotated around the circular design and eventually came to a stop. The sound added to the experience.

Did the app developer's tutorial help you understand the app? Any problems with the app developer?

Excellent demonstration on the whiteboard. A little bit confusing whether you are logged in to pupil or teacher.

Are there further comments you would like to make?

Perhaps making a simpler version for younger children. Perhaps introduce more backgrounds.

Teacher 2:

Are there any issues with the app?

Very early in the launch to gauge any issues. So far it is reliability of repeating operations such as the photo display as it seems to be difficult to get some of the photographs to centre even when faces are highlighted as such. Also, when adding stickers without a QR code, a slight finger error and a sticker is recorded as removed because the two keys are very close together so it is easy to inadvertently swipe the wrong one and there is no 'undo' or 'save' button.

Did you enjoy using the app?

Yes once it was clearer how to navigate around it.

How does it perform over the current sticker collection?

Children love the random allocation of 'stickers' and having their photograph on display compared to a paper based version.

What would you rate the app(1-5)?

4

Do you like the additional features in the app? Which ones?

Yes, particularly the opportunity to add a photograph to personalise it.

Was the design easy to comprehend?

The appearance and overall concept are easy to comprehend as an end-user (child) although for the teacher it requires some significant effort as not all screen commands are obvious, such as having to press the 'edit' button to exit that part of the app.

Did the children enjoy using the app?

The short exposure that the children have enjoyed has been very well received and proved to be motivating.

Did they comprehend it effortlessly?

Most children did.

What was their most favored part of the app? and why?

The favourites were the cashing in of tickets and the sound effects this created plus the use of photographs and a technological rewards system

Did the app developer's tutorial help you understand the app? Any problems with the app developer?

The app was demonstrated to assist with understanding and he was very knowledgeable although he tried to condense a large project into a very short and rapid training session. He was helpful and patient.

Are there further comments you would like to make?

Teacher 3:

Are there any issues with the app?

Not at present

Did you enjoy using the app?

Yes

How does it perform over the current sticker collection?

No problems as yet

What would you rate the app(1-5)?

4

Do you like the additional features in the app? Which ones?

Only had a chance to try the giving out of stickers and redeeming them at the end of the day. Plan to try camera next week – children keen to put their faces in their circle!!

Was the design easy to comprehend?

Yes, relatively. I always find that I need a chance to get to grips with something new, but found it relatively easy to operate the basic operations.

Did the children enjoy using the app?

Loved it!!! Great excitement when we use it.

Did they comprehend it effortlessly?

As yet they are only redeeming their stickers on my ipad, but they love pushing the blue ticket button at the end of the day.

What was their most favored part of the app? and why?

The sound as they watch the image go round the circle. They very annoyed if someone stands in the way and they can't see it. Also they loved it when they discovered the 'YES' after the circle has been selected!

Did the app developer's tutorial help you understand the app? Any problems with the app developer?

Yes, but could have done with a longer tutorial to have a chance to experiment with the new app and being able to get help if problems cropped up.

Are there further comments you would like to make?

Not at the moment. The app has been relatively easy to work. Haven't tried creating a QR code yet
