Observe how Simply Wales currently operate																					
Evaluate their current operation																					
Research current SMES's and how they function / problems they face / how they overcome them etc																					
Form a Business Case																					
Root definitions																					
Conceptual model																					
Activity Table																					
Analysis																					
Process model																					
Systems Thinking																					
Sequence Diagram																					
High-level requirements																					
Research into existing systems																					

Evaluate the existing systems									
Research into other theory and technology to solve the problem ⁄ other solutions									
Choose a suitable solution and justify									
What will you need to learn?									
what material will you be using?									
Gain permission from Peter for client information									
FINISH FIRST DRAFT									
FEEDBACK									
FINAL DRAFT									
SUBMIT									
Weekly supervisor meetings
